Annotated Study Book - Page 18 of 147

| : Weight History (Weight_Hx) [WEIGHT_HIST] | |
|---|--|
| Study ID: This form is Ilect additional information to what would be recorded in the Medical History/Concomitant Illness eCRF. | |
| Please ensure that all relevant medical history related to weight related comorbidities is recorded in the below form. | |
| .* What was subject's weight a year ago? [What was your weight a year ago] | [gpWGTHX_YEAR] [WGTHX_YEAR] [WGTHX_UNIT] XXX.X |
| .* What has been the subject's weight at birth? [What has been the subject's weight at birth?] | [WCTHX_BIRTH.] [A:1] |
| ,* What has been the subject's maximum weight? [What has been your maximum weight?] | [grpWGTHX_MAX] [WGTHX_MAX][WGTHX_UNIT1] xxxx.x |
| .* How old was the subject at that time when he/she gained maximum weight? [How old were you at that time?] | [WGTHX_YEARS] NZ years |
| 5. In the subject's own opinion, was the subject overweight or obese when [hidden] [Subject overweight or obese] | [grpWGTHX_OPN_OBAS] [WGTHX_OPN_OBAS] 5 years old [A:2] ○ No [A:1] ○ Yes [WGTHX_OPN_OBAS2] 11 years old [A:2] ○ No [A:2] ○ No |
| 5. What is the least the subject has ever weighed as an adult? [hidden] [What is the least you have ever weighed as an adult?] | [grpWGTHX_LEAST] [WGTHX_LEAST][WGTHX_LEAST_UNIT] XXXXXX. |
| /.* How many times has the subject intentionally lost ≥ 11 lb/5 kg? [How many times have you intentionally lost ≥ 10 pounds/5 kg?] | [WGTHX_LOSTLBS] [A:59] Never [A:414] ① 1-2 [A:415] ② 3-5 [A:415] ② 5-5 [A:417] ② 10 |
| (Which of the following methods has the subject tried for weight loss (regardless of how much weight they lost)? (Tick all that apply) [Which of the following methods has the subject tried for weight loss (regardless of how much weight they lost)?] | [appWGHX,WEIGHTLOSS] [WEIGHTLOSS1] [A:1] self-directed (i.e., "on my own," using only books, websites, mobile apps, activity trackers or fitness monitors) [WEIGHTLOSS2] [A:2] self-directed (i.e., "on my own," using only books, websites, mobile apps, activity trackers or fitness monitors) [WEIGHTLOSS3] [A:1] self-directed (i.e., "on my own," using only books, websites, mobile apps, activity trackers or fitness monitors) [WEIGHTLOSS3] [A:2] self-directed (i.e., "on my own," using only books, websites, mobile apps, activity trackers or fitness monitors) [WEIGHTLOSS3] [A:1] self-directed (i.e., "on my own," using only books, websites, mobile apps, activity trackers or fitness monitors) [WEIGHTLOSS4] [A:2] self-directed (i.e., "on my own," using only books, websites, mobile apps, activity trackers or fitness monitors) [WEIGHTLOSS5] [A:1] self-directed (i.e., "on my own," using only books, websites, mobile apps, activity trackers or fitness monitors) [WEIGHTLOSS5] [A:2] self-directed (i.e., "on my own," using only books, websites, mobile apps, activity trackers or fitness monitors) [WEIGHTLOSS5] [A:2] self-directed (i.e., "on my own," using only books, websites, mobile apps, activity trackers or fitness monitors) [WEIGHTLOSS5] [A:2] self-directed (i.e., "on my own," using only books, websites, mobile apps, activity trackers or fitness monitors) [WEIGHTLOSS6] [A:2] self-directed (i.e., "on my own," using only books, websites, mobile apps, activity trackers or fitness monitors) [WEIGHTLOSS7] [A:2] self-directed (i.e., "on my own," using only books, websites, mobile apps, activity trackers or fitness monitors) [WEIGHTLOSS6] [A:2] self-directed (i.e., "on my own," using only books, websites, mobile apps, activity trackers or fitness monitors) [WEIGHTLOSS7] [A:2] self-directed (i.e., "on my own," using only books, websites, mobile apps, activity trackers or fitness monitors. [WEIGHTLOSS6] [A:2] self-directed (i.e., "on my own," using only books, websites, mobile apps, activity trackers or fitness monitors. |
| * Regarding bariatric surgery, has the subject ever [Regarding bariatric surgery, has the subject ever] | [SPRIATRIC1] [BARIATRIC1] [BARIATRIC2] [A:17] |
| 0.* Did any of the subject's first degree relatives ever have overweight or obesity? (First degree relative is defined as biological parent or sibling, if unknown select 'No') (Doesty in first degree relatives?) | [WGTHX_OBESITY_YN] [A:2] |
| 1. What has the subject's weight gain pattern been from age 18 to present: [hidden] [What has your weight gain pattern been from age 18 to present:] | [WGTHX_GAIN] [A:409] \(\) No pattern [A:409] \(\) Gradual increase of weight [A:411] \(\) Gradual increase of weight [A:411] \(\) Sudden weight gain in relation to pregnancy [A:412] \(\) Sudden weight gain in relation to pharmacological treatment [A:412] \(\) To yo pattern/weight cycling due to intermittent weight loss treatment (diet and exercise or pharmacological) |
| 2. Number of pregnancies If male just specify 0 (zero) [hidden] [Number of pregnancies:] | [WGTHX_PREG] N2 |
| [Number of pregnancies:] 3. Yes [hidden] [Yes] | [grpWGTHX_OBESITY] [WGTHX_OBESITY] [If yes, whom: [WGTHX_OBESYES] [A:3] |
| 4. 18 years old [hidden] | [WGTHX_OPN_OBAS3] [A:2] ONO |

| Met exclusion criteria Entry [sctELIG_EXCL] | |
| 3.1 Met exclusion criterion [Met exclusion criterion] | [ELIG_MET_EXCL] |
| Eligibility criteria [sctELIG_CRITERIA] | |
| Inclinate consent of parent(s) or legally acceptable representative (LAR) of participant and child assent, obtained before any study-related activities. Study-related activities are any procedures that are carried out as part of the study, including activities to determine suitability for the a. The parent(s) or LAR of the child must sign and date the Child Assent Form or provide oral assent (according to local requirements) b. The child must sign and date the Child Assent Form or provide oral assent (according to local requirements) 2. Age, at the time of signing informed consent, of: a. Group Kilds; 6 to < 12 years b. Group Teens: 12 to < 18 years, and Tanner stage > 1 3. BMI, at screening and randomisation, corresponding to a. Group Kilds: ≥95th percentile ⁸ b. Group Teens: 925th percentile ⁸ or ≥85th percentile ⁸ with the presence of at least 1 weight-related comorbidity (treated or untreated): hypertension, dyslipidaemia, obstructive sleep apnoea or TZD 4. History of at least one unsuccessful effort to lose sufficient body weight after participation in a structured lifestyle modification programme (diet and exercise counselling) for at least 3 months ⁵ 5. Body weight of >45k gat a screening and randomisation. | ne study. |
| For participants with T2D at screening the following inclusion criteria apply in addition to criteria 1-5: 6. Treatment with either lifestyle intervention, or treatment with metformin according to local label. Treatment with metformin should be stable (same drug(s), dose, and dosing frequency) for at least 90 days before screening 7. HbAIc \$10.0% (86 mmol/mol) as measured by central laboratory at screening For participants assessed by DXA scan the following additional criteria must apply: 8. Evaluation of the quality of the DXA scan must be performed and found acceptable by the imaging laboratory prior to randomisation | |
| 9. BMI ≤ 40.0 kg/m ² at screening | |
| Exclusion Criteria Obesity related 1. Treatment with any medication prescribed for the indication of obesity or weight management within 90 days before screening 2. Previous or planned (during the study period) obesity treatment with surgery or a weight loss device. However, the following are allowed: (1) liposuction and/or abdominoplasty, if performed >1 year prior to screening, (2) adjustable gastric banding, if the band has been removed > 3. Uncontrolled thyroid disease. 4. Participants with endocrine, hypothalamic, or syndromic obesity 5. A self-reported (or by parentisy)/LAR where applicable) change in body weight >5% within 90 days before screening irrespective of medical records | 1 year prior to screening, (3) intragastric balloon, if the balloon has been removed >1 year prior to screening or (4) duodenal-jejunal bypass liner (e.g., Endobarrier), if the sleeve has been removed >1 year prior to screening. |
| Mental health 6. History of major depressive disorder within 2 years before screening ^b 7. Diagnosis of other severe psychilatric disorders (e.g., schizophrenia, bipolar disorder) ^b 8. A lifetime history of suicidal attempt ^b 9. Suicidal behaviour within 30 days before screening ^b Additional mental health for Group Teens 10. A Patient Health Questionnaire 9 (PRQ 9) score of ≥15 at screening 11. Suicidal ideation corresponding to type 4 or 5 based on the Columbia-Suicide Severity Rating Scale (C-SSRS) within 30 days before screening | |
| General Safety 12. History or presence of chronic pancreatitis ^b 13. Presence of acute pancreatitis within 180 days before screening ^b 14. Calcitonin ≥50 ng/L 15. Personal, or first-degree relative's, history of multiple endocrine neoplasia type 2 or medullary thyroid carcinoma ^b 16. Type 1 disbetes mellitus or monogenic disbetes 17. Renal impairment with estimated glomerular filtration rate (eGFR) < 60 mL/min/1.73 m², as calculated by the Bedside Schwartz equation ^c 18. Presence or history of malignant neoplasms within the past 5 years prior to the day of screening² 19. Surgery scheduled for the duration of the study, except for minor surgical procedures, in the opinion of the investigator 20. Known or suspected abuse of alcohol or recreational drugs 21. Use of any medication with unknown or unspecified content within 90 days before screening 22. Known or suspected hypersensitivity to trial product(s) or related products 23. Previous participation in its study. Participation is defined as signed informed consent 24. Participation (i.e., signed informed consent) in any interventional, clinical study of an approved or non-approved investigational medicinal product within 90 days before screening 25. Other participations in the same household participating in any semaglutide study 26. Known history of heart disease (including history of clinically significant arrhythmias or conduction delays on ECG within 180 days before screening, new clinically significant arrhythmias or conduction delays on ECG identified at screening 27. Female who is pregnant, in itendes to become pregnant or is of child-bearing potential and not using a highly effective contraceptive method, as defined in Appendix 4, Section 10.4 28. Any disorder, unwillingness, or inability, not covered by any of the other exclusion criteria, which in the investigator's opinion, might jeopardise the participant's safety or compliance with the protocol | |
| Glycaemia-related 29. Treatment with glucose-lowering agent(s) within 90 days before screening (except for metformin) 30. Treatment with a GLP-1 receptor agonist within 180 days before screening | |
| Diabetes related for participants with T2D 31. Uncontrolled and potentially unstable diabeter cetinopathy or maculopathy. Verified by a fundus examination performed within the past 90 days before screening or in the period between screening and randomisation. Pharmacological pupil-dilation is a requirement unless using a di 32. Positive insulinoma associated-protein 2 (IA-2) antibodies or anti-glutamic acid decarboxylase (anti-GAD) antibodies | gital fundus photography camera specified for non-dilated examination |

Study Object Descriptions: Acute Kidney Injury

Type RefName Description
Form ACUTE_KIDNEY_INJURY ACUTE_KIDNEY_INJURY In form is a Dynamic form which is to be triggered by the AE form to appear when AE category item AE_CATEGORY_MATCH_YN = Acute kidney injury

Item RENAL_SEQ_NO Calculated in Inform via rule
Item RENAL_AE_NO Integrations: A - please do not change the refname or format
Item TEST_MEDIUM_CODE Item required for OC
Item TEST_MEDIUM_CODE_1 Item required for OC
Item TEST_MEDIUM_CODE_2 Item Required for
